Objective:

I turned my sights to the technology sector because of all the amazing stories of how A.I. and data science is being used to improve the human condition. Now as a recent LaunchCode graduate I'm eager to start a new career and do my part to help society.

Skills:

Java	IntelliJ	Visual Studio
MySQL	SpringMVC	Jinja2
HTML/CSS	Hibernate	Flask
Python	Thymeleaf	SQLAlchemy

Project Experience:

Best Campsite

A web app where users can sign in, browse campgrounds, and rate individual campsites in order to reference them later.

- Java, SpringMVC, Hibernate, MySQL, Thymeleaf, REST API
- <https://github.com/BobbyTheUnspeakable/best-campsite>

Blogz

LC101 project that allows users to sign in, read, and create their own blog posts.

- Python, Flask, SQLAlchemy, Jinja, MySQL, HTML
- <https://github.com/BobbyTheUnspeakable/blogz>

Work History:

Shuttle Driver/Bellman, Lodging Hospitality Management, St. Louis, MO. 2016-2018
